

**SSPC – The Society for Protective Coatings**  
*Southern California Chapter*

**SSPC C-1 & C-2 Courses, plus the PCS Exam**

**Dates: April 18-22, 2005**

**C-1: Fundamentals of Protective Coatings for Industrial Structures**

This course provides a practical and comprehensive overview for those who are new to the protective coatings industry. It is also an ideal refresher for reviewing the fundamentals of corrosion and the use of coatings as a protective mechanism. C-1 fulfills part of your requirement for SSPC Protective Coating Specialist (PCS) Certification.

**C-2: Specifying and Managing Protective Coatings Projects**

This management course is designed to sharpen your understanding of overall industry practices, beyond your area of specialization, and put your experience in unison with the most current theories and practices that govern coatings project management.
